

BE! CLEAR™

Safety and mobility rolled into one

clarus⁷

OVERVIEW

be! Clear is an innovative, non-porous mobile glassboard that serves many purposes. Whether you use it as a protective shield from today's various health threats, as a collaborative writing surface, or as a temporary space divider that won't impact the integrity of your open-concept office design, you can keep everyone healthy and at a safe distance without impeding the sightline from one end of your space to the other. The optional cutout feature allows you to safely take the temperature of incoming employees, customers or visitors, as well as handoff important documents through an easily sanitized barrier while safeguarding everyone. Thanks to the natural properties of glass, be! Clear is safety and mobility rolled into one perfect solution.

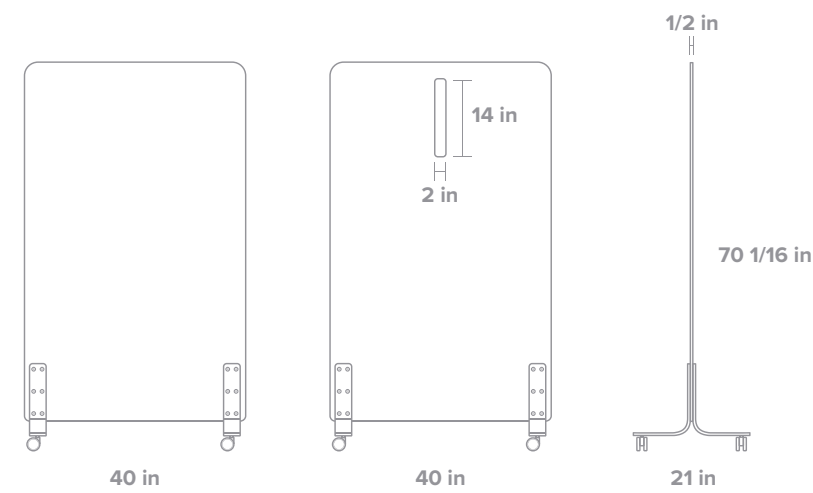

Legs: Black | Without & with thermometer cutout

Legs: Black | No thermometer cutout
